

## **AGICOA STATEMENT**

### **Solidarity with Ukrainian people and members following the offensive war incited by the Russian Federation**

AGICOA deplores the horrifying and illegal actions of Russia's government and military instigating an unjust and unconscionable war in Europe against the sovereign country Ukraine and condemns every act of aggression against its innocent population.

We express full solidarity with the Ukrainian people and its creative community, and stand by our business partners, colleagues, relatives and friends in Ukraine for any assistance they need.

The AGICOA community supports the International and European leaders for implementing all necessary measures to stop the violence in Ukraine immediately and to insist on the withdrawal of all Russian forces from Ukraine's territory in order to put an end to this tragedy.
